

The Orange Experience – Putting the pieces together again

Bottle 26 Orange/Orange

Orange is a colour with amazing qualities. It can open and awaken people and animals to many positive qualities that lie deep within as well as repair damaged energy flows. It can be used to assist in the following cases:

- The Humpty-Dumpty bottle: when “All the king’s horses and all the king’s men can’t put Humpty together again”, the Orange/Orange does.
- In people suffering severe shock, Vicky Wall saw an etheric gap open on the left side of the body, through which the life energy could move, leaving the aura off centre, moved to the left, which also affects our left/right brain integration. The orange essences close the energetic gap allowing the aura to move back to a centered position. Orange will close holes in the aura, helping prevent energy leakage.
- This can happen in any trauma, with phobias, deep fears, nervous breakdowns, disorientation, etc. The orange opens us up to higher energy, allowing new levels of awareness, and an awakening on all levels of our being, bringing with it the possibility of greater happiness.
- This brings the possibility of balance in left/right brain integration – allowing clear thinking and the ability to focus again.
- Orange is the shock absorber and can help us to get it together again in situations where “I’ve never been the same since...”
- The orange area of the physical body is around the hips (affecting our posture and balance to gravity) and is the colour the sexual organs resonate to, balancing energy in that area.
